

R E M A R K S

The new paragraph added to the top of page 1 sets forth a cross-reference to the international application.

The amendment to the paragraph beginning on line 21 of page 1 serves to correct a clerical error in a page number for the publication cited in the Background of the Invention. The corrected page number is set forth in the copy of the International Search Report which is submitted concomitantly herewith.

Respectfully submitted,

RICHARD S. BARTH
